in the subject line of your comments.

FOR FURTHER INFORMATION CONTACT: To request additional information about this ICR, contact Earl Greene by email at eagreene@usgs.gov or by telephone at 571-332-4184.

SUPPLEMENTARY INFORMATION: In accordance with the Paperwork Reduction Act of 1995, we provide the general public and other Federal agencies

with an opportunity to comment on new, proposed, revised, and continuing collections of information. This helps us assess the impact of our information collection requirements and minimize the public's reporting burden. It also helps the public understand our information collection requirements and provide the requested data in the desired format.

We are soliciting comments on the proposed ICR that is described below. We are especially interested in public comment addressing the following issues: (1) is the collection necessary to the proper functions of the [USGS](#); (2) will this information be processed and used in a timely manner; (3) is the estimate of burden accurate; (4) how might the [USGS](#) enhance the quality, utility, and clarity of the information to be collected; and (5) how might the [USGS](#) minimize the burden of this collection on the respondents, including through the use of information technology.

Comments that you submit in response to this notice are a matter of public record. We will include or summarize each comment in our request to OMB to approve this ICR. Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment - including your personal identifying information - may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

Abstract

The U.S. Geological Survey (USGS) Water Resources Research Act (WRRA) program issues an annual announcement to solicit applications for the noncompetitive State Water Resources Research Program annual grants authorized by section 104(c) and for the national competitive grant program authorized by section 104(g) of the Water Resources Research Act of 1984 (P.L. 98-242), as amended [42 USC 10303(c)].

Annual grants (104c) may contain research and information transfer projects as well as an administration project describing the institutes overall administration and objectives. The research projects are generally selected in a competitive statewide solicitation, peer review, and selection process designed and conducted by each institute. National competitive grants (104g) will focus on water problems and issues of a regional or interstate nature beyond those of concern only to a single State and which relate to specific program priorities identified jointly by the Secretary (of the Interior) and the institutes.

The State Water Resources Research Institutes were established under Section 104(a) of the Act [42 USC 10303(a)]. There are 54 Water Resources Research Institutes, one in each state, the District of Columbia, Puerto Rico, the U.S. Virgin Islands, and Guam. The Institutes are organized as the National Institutes for Water Resources (NIWR). NIWR cooperates with the USGS in establishing total programmatic direction, reporting on the activities of the institutes, coordinating and facilitating regional research and information and technology transfer.
